Available with and without fingertips.</i></p>

Where to buy gloves and splints:

Not every company listed here will carry all of the products shown above. Call first to confirm availability. Many products can also be purchased online from sites such as: www.performancehealth.com and www.amazon.ca. Shipping costs vary. Or check with your local medical supply company to see if they can custom order the product you are looking for. If you are already receiving treatment through a hospital outpatient arthritis program, you may be able to purchase gloves or other splints from the hospital directly. **Some medical supply stores offer a discount on non-prescription products to OASIS clients – ask before you purchase!**

Custom Splints:

Custom hand and wrist splints may be made by a certified hand therapist (CHT), who is an Occupational Therapist or Physiotherapist who has received specialized training. If you have extended medical coverage, you may be able to get the splint and treatment covered but you may need a doctor’s prescription.
