About the Hospice

Dogwood Lodge Hospice is a 10-bed hospice operated by VCH.

The mission of hospices within VCH is to create a unique environment for quality living and dying as individuals approach the end of their lives. Everyone involved in the journey – the individuals, their families and staff- is cared for and provided with the level of support and assistance they need.

At Dogwood Lodge Hospice, VCH staff and medical staff provide compassionate and quality end-of-life care to clients, and support to their loved ones in a home-like environment. Although there are other programs within the Dogwood Lodge building, the hospice is separate and operates as an independent program.

Private Rooms and Amenities

Each client has a private room, and there is a *bathroom shared between two rooms*. Each room includes a new flat screen Smart TV with cable.

Other amenities in the hospice include ceiling lifts in each room, bed alarms, commode chairs, wheelchairs, a shared shower and spa tub area, and a shared outdoor patio. There is a shared lounge for every two rooms.

Who is eligible?

Hospice care may be appropriate for people who are living with a serious, life limiting illness or are nearing the end of their lives. A person may also be cared for temporarily in hospice to provide respite for their caregivers.
