

## IMMUNIZATION (VACCINATION) INFORMATION FOR CHILDCARE

**Important: Please complete and return this form to your childcare facility. If you wish to complete this information online go to [www.vch.ca/child-immunization-report](http://www.vch.ca/child-immunization-report)**

Dear Parent/ Guardian:

All childcare facilities in BC are required by law under the *Community Care and Assisted Living Act* to keep a record of each child's immunization history. These records are required to be made available to Vancouver Coastal Health Authority (VCH) medical health officers for public health programs. The information you provide on this form will be used to update your child's health record at VCH in order that: medical health officers may respond if a disease outbreak occurs in your childcare facility; public health staff can recommend immunizations which your child may be missing; and VCH is able to provide better care to your child as part of its public health programs.

### PART B: CHILD'S VACCINATION INFORMATION

1. Has your child had chickenpox disease at 12 months of age or older?  
 ✓ check the correct answer  Yes  No  Not Sure

Children who have had chickenpox disease on or after 12 months of age are considered to have life-long immunity to chickenpox disease and do not require vaccination against chickenpox disease. Children who have not had chickenpox disease on or after 12 months of age (this includes children who had disease younger than 12 months of age) need 2 doses of chickenpox vaccine. Dose 1 should be received at 12 months of age and dose 2 should be received before entering kindergarten.

2. **ATTACH A PHOTOCOPY of your child's vaccination record to this form.**

For example: BC Child Health Passport OR immunization record. **Attach a copy of the original record** as it appears in English or any language. Ensure your child's name and date of birth are written on each page.
